CS + Mathematics student building AI-assisted workflow, mobile, and web applications with Python, Flutter, Firebase, JavaScript, Swift, and SQL.

EDUCATION

Santa Clara University - B.S. Computer Science and Mathematics June 2026
College of Arts and Sciences | Transfer Student Fall 2024 from Loyola Marymount University | GPA: 3.587

Relevant Courses:

AI Governance and Cybersecurity	Introduction to Data Science and Machine Learning	Computer Networks
Web Application Development	Mobile Application Development	Algorithms and Analysis

Planned graduate study: M.S. in Artificial Intelligence, Fall 2026 – Fall 2027

PROJECTS:

ExpenSense AI Agent *Python, OpenAI API, Google Drive API, Gmail API*

- Developed an AI-powered expense reimbursement assistant that supports receipt scanning, expense interpretation, and request submission.
- Implemented approval logic with manual review escalation above preset limits to make reimbursement decisions easier to inspect and review for authorized users.
- Integrated OpenAI, Google Drive, and Gmail APIs for document processing, communication, and data storage across the reimbursement workflow.

Saphire SAT Practice App *Flutter, Dart, Google Firestore*

- Built a cross-platform SAT preparation app with interactive study modes and instant feedback for practice questions.
- Utilized Google Firestore for user authentication, data storage, and question history management for user review purposes.
- Optimized the app for web and mobile platforms to improve accessibility and user engagement.

HealthTracker Pro *HTML, CSS, JavaScript, Google Firebase*

- Developed a web application for managing personalized health plans by storing recipes and key health data.
- Designed a user interface with recipe search and health information entry features for easy data tracking.
- Implemented a Firebase backend with API integration for secure data storage and real-time synchronization.

EXPERIENCE

Notetaker for Disability Support Services at Loyola Marymount University *September 2022 – April 2023*

- Thoroughly took notes in specific classes for students with disabilities
- Organized notes and submitted them promptly after class.

LEADERSHIP AND ACTIVITIES

Northern California Special Olympics Volunteer Coach *January 2026 – Present*

- Coached and supported athletes during practices and events, adapting instruction to individual abilities and personalities
- Communicated clearly in fast-moving, team-based situations and helped resolve conflicts calmly and respectfully

LMU College Democrats Club – Secretary *2023 – 2024*

- Organized topics for each meeting with hours of research
- Steered the flow of every conversation and mediated between intense political disagreements

LMU Agapé Service Organization *2023 – 2024*

- Bagged fresh produce for families in need every week at the Social Justice Learning Institute in Inglewood
- Collaborated with others to promote mental health awareness and encourage healthy habits

TECHNICAL SKILLS

Languages: Python, Java, C++, C, JavaScript, SQL, Dart, Swift, HTML, CSS

Frameworks / Tools: Flutter, Firebase, Firestore, OpenAI API, Google Drive API, Gmail API

Areas: Full-stack development, mobile development, AI-assisted workflows, machine learning basics, data analysis and visualization
